Education

Indian Institute of Technology (Indian School of Mines), Dhanbad

Master of Technology (M.Tech) in Computer Science

2024– Present

Dhanbad, Jharkhand

University Institute of Technology-RGPV, Bhopal

Bachelor of Technology (B.Tech) in Electronics and Communication

2019 – 2023

Bhopal, M.P.

Projects

Lightweight Denoising for Robust RAG Against Textual Perturbations

Master's Thesis Project (Ongoing)

🐙 [GitHub](#)

- Developing a lightweight denoising model as a pre-processing layer to make Retrieval-Augmented Generation (RAG) systems robust against textual perturbations (e.g., typos, OCR errors).
- Designing a comprehensive benchmark to evaluate the model's impact on RAG performance and resilience, aiming to improve deployment in real-world, noisy text environments.

Hybrid ML and LLM-Based Suicide Risk Classification from Social Media Text

Tech Used: Python, Scikit-learn, XGBoost, PyTorch, HF Transformers, Llama3, T5

🐙 [GitHub](#)

- This project focuses on predicting suicide risk by analyzing social media text through semantic analysis.
- Built a hybrid ensemble using ML models (Logistic Regression, SVM, Random Forest, XGBoost) and LLMs (Llama2/3), achieving **95% accuracy** in suicide-risk detection.
- Demonstrating the effectiveness of integrating traditional ML algorithms with large language models (LLMs) for accurate and reliable suicide risk detection.

LexiSense: Semantic Book Recommender using LLM

Tech Used: Python, NumPy, Pandas, Sentence Transformer, CromaDB

🐙 [GitHub](#)

- Built a semantic book search system using Sentence Transformer embeddings, LangChain, and Chroma.
- Tuned similarity thresholds and designed benchmark queries to ensure highly relevant recommendations.
- Implemented a Gradio dashboard with Zero-Shot Classification and Sentiment Analysis for filtering books by genre

Technical Skills

Languages: Python, C++, JavaScript, HTML, CSS

Technologies: SQL, NumPy, Pandas, PyTorch, Transformers, NLTK, HuggingFace, Keras, Google Cloud, Reactjs, Nodejs, Expressjs, Git, Github.

Concepts: Data Structures, Algorithms, Compiler, Operating System, Encryption, Decryption, Cybersecurity, DBMS, Machine Learning, Deep Learning, Large Language Models, Wireless Networks.

Certifications

Machine Learning (Coursera)

Full Stack Development (GFG)

Oracle Cloud Infrastructure 2025 AI Foundations Associate (Oracle)

Extra-Curricular Activities

Team Member: Senior Member of student-run NGO The Responsible Youth; Organized a green drive in UIT-RGPV Bhopal Campus

College Football Team : Won Nodal Level football tournament ; Runner-up(2/32) in IIM Indore "Ranbhoomi 6.0" Inter-college Sports Even

Event Head (Mahasangram '23): Led an 80-member team to execute the annual college sports event, drawing 5,000+ attendees and securing 4+ new sponsors.
